## Accuratus OEM and Bespoke Customisation

### Customised Keyboard Layouts

High quality laser etched keys customised to match your software

We can work with you to create your own customised keyboard layout, whether it be to match up with your software package or to aid in the operation of the computer. Going from design to build our team can help create the right layout for you. On most of our Accuratus range of keyboards we use high quality laser etching for the key legends so they are very hard wearing and don't wear away like regular silk screened key legends.

### Bespoke Coloured Keys

Pantone matched colours and high quality coloured plastics

With our Accuratus range of keyboards we can create your very own custom keyboard layout with specifically selected coloured keys. By using carefully selected plastics we can ensure that the colours match exactly to the Pantone Colour reference you provide. If you are unsure of the colours to go for then our experienced design team can match the colours for you. On all our custom coloured keyboards we make sure that the plastics are coloured and the colour is not sprayed onto the surface of the key, as to ensure excellent durability.

### Brand Awareness

Custom positioned logo's to promote your brand and business

Why not go that small step further with us and get your brand on the keyboards, mice or flash memory you require... We can customise our Accuratus range with your logo, in 1 colour 2 colours or as many colours you need. Keyboard LED's and illuminated wheels on mice can even be changed to colour match your logo

# Accuratus 260 Euro HUB

**Full Size Keyboard**

**Black USB Keyboard with 2 x USB2.0 Ports & Patented One Touch Euro Key**

## About

Model No. KYBAC260U-HUBBLK

The Patented Accuratus 260 is the only keyboard with a specific Euro Currency key. Inputting the Euro symbol for many users is difficult and time consuming. This problem is immediately solved with the 260's dedicated one touch € key. The 260 Euro Hub has also two USB 2.0 ports giving you extra connectivity right at your finger tips. The keys are extremely durable and provide excellent feedback. For the ultimate system why not match it up with an Accuratus mouse, simply beautiful.

## Specification

- USB Connection
- Patented one touch Euro key
- 2 x High speed USB 2.0 ports
- Blue status LED's
- Full UK layout with Vista Keys
- Enhanced full 105 Windows key layout
- Highly reliable membrane contact technology
- Responsive tactile feed-back keys

## Physical Dimensions

# Accuratus 260 Membrane

## Keyboard Membrane

### Transparent Polyurethane Shaped Membrane for the 260 Euro Keyboard

## About

Model No. VIZ-260EURO-SEEL

The Accuratus Membrane is moulded on individual keyboard models so you can be assure of a tight fit. Being polyurethane these skins can take a fair degree of abuse, leaving the keyboard underneath free from oil, dirt, dust or spills. With this membrane over the keyboard you can easily disinfect the keyboard with for example a disinfectant spray to prevent passing of germs and bacteria. Excellent for environments where many different people use the same computer keyboard. Accuratus have literally got 'it covered' with these tough polyurethane covers.

## Specification

- Transparent polyurethane membrane
- Completely covers the top and sides of the keyboard
- The membrane is moulded around every key
- Strong adhesive is already around the edges of the membrane simply peel off the backing and affix.
- Easily cleaned
- Protect your keyboard from oil, dirt, dust and spills
- Ideal to help prevent the passing of germs
- This 260 Membrane will fit the following 260 Euro keyboards:  
KYBAC260-PS2EURO (PS2 OFFWHITE)  
KYBAC260U-USBEURO (USB OFFWHITE)  
KYBAC260EURO-BLK (PS2 BLK)  
KYBAC260-UBLKEURO (USB BLK)

## Physical Dimensions

Dimensions: L x W x H (mm) 456 x 168 x 32 -

# Accuratus K82A · Combo (USB & PS/2) Slimline Keyboard

## About

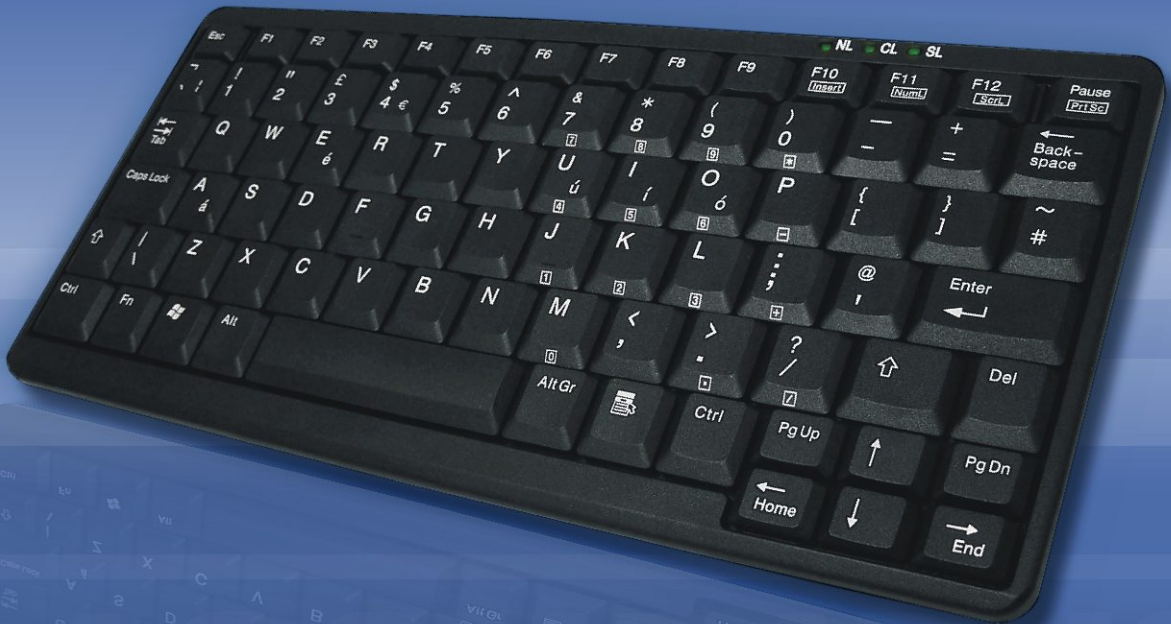

Model No. KYB500-K82A

Boasting one of the smallest footprints out of all Accuratus keyboards, the K82A is perfect for situations where space saving is essential. Its internal metal plate and durability makes the K82A an ideal keyboard for every situation, home, POS and industrial purposes. Not everyone wants or needs a large format keyboard. You may not have noticed but literally thousands of these outstanding keyboards are in use around the globe. Many have found their way into car showrooms, high street retailers, airports, information booths, public internet terminals peoples houses.

## Specification

- Combo Connection : USB and PS/2
- FN (function) key to multiplex some keys
- Compares to Cherry G84-4100 / G84-4101
- Scissor key technology
- Support suspend and resume operation
- Support remote wake up
- UK and other language variants available

## Accuratus 540 · Mini Keyboard with High Resolution Touchpad

### About

Model No. KYBAC-540

The Accuratus 540 has a small footprint and an integrated touch pad for those applications where space is limited, such as server rack draws, retail or at home. A big winner with major retail stores, this beautifully constructed keyboard offers all the facilities of a standard keyboard, but with some of the 'fat' removed. Though smaller than a standard keyboard, the 540 is still very tough using reliable membrane technology. Small, tough & reliable – It's got to be the 540.

### Specification

- UK key layout with Vista keys
- Mini keyboard layout
- Retail packaged
- 89 keys with full function of 105 key layout
- USB or 2 x PS/2 connection available
- Black or Off-white in colour
- Integrated high resolution touchpad
- Integrated left and right mouse buttons
- Fold down feet to provide keyboard tilt
- Built-in wrist rest
- Compact and slim design

### Physical Dimensions

Weight: 630 g  
Cable Length: 1.85 m  
Dimensions: LxWxH: 289x227x27 mm

# Accuratus Toughball

## Wireless Keyboard

### 2.4GHz Wireless Keyboard with 800dpi Optical Trackball

## About

Model No. KYB-TOUGHBALL

TOUGHBALL, beautiful close up, even better from a distance. From its special coating to its pin sharp optical trackball, the Toughball is a product of beauty. Hook the Toughball up to a PC with an LCD projector and be staggered at it's wireless range. Use it with your media center and realise it works from all corners of the room or simply use it as a solid workhorse in the office. Either way the Toughball will not disappoint.

## Specification

- 2.4GHz long range cordless freedom
- 10 meters range
- Over 500 000 unique ID's
- 360 degree operation
- Integrated 800dpi Optical Trackball
- Compact keyboard for space saving
- 12 Multimedia Keys
- Inbuilt scroll wheel
- Low Battery Indicator
- Runs on 4 x AA Batteries (Up to 3 months use) - Included
- Mini 2.4GHz USB dongle to enable the wireless connectivity

## Physical Dimensions

## Combo (USB & PS/2) Silicone Multimedia Keyboard with Hivis Key Legends

### About

Model No. KYB-WP127-HIVIS

Combo(USB & PS/2) Interface

Multimedia Keys

Yellow Key Legends

Black Chassis

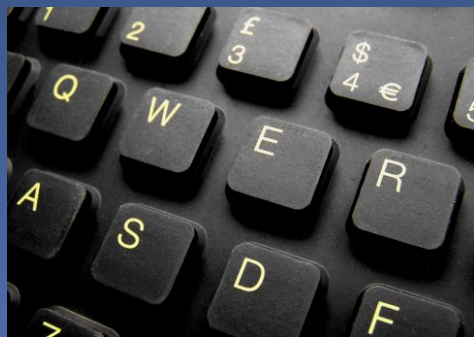

Plunger Keys

The wp127 is a flexible silicone based Keyboard which is ideal for dirty, dusty and wet environments. It can withstand most things you throw at it! It's made of a high quality silicone material which offers the perfect combination of practicality, durability, comfort and flexibility. The unique material allows you not only to clean the keyboard with soap and water, but makes it resistant to any dirt, dust, sand and even coffee or tea spills! Simply wipe up the spilled liquid with a damp cloth and continue working. The wp127 would be perfect for so many situations... car garages, warehouses, in vehicle computer systems, workshops, factories, laboratories, food environments, boats, the list goes on.

### Specification

- Combo (USB & PS/2) interface
- Flexible high quality black silicone chassis, can easily be rolled up
- Yellow high visibility easy read key legends
- Full UK key layout with number pad and large return key for easy typing
- Multimedia and internet hot keys (includes calculator and my computer)
- Dustproof - Could even be used in a sand storm!
- Washable - Can be washed and disinfected to prevent spread of germs
- Can be used in a damp/humid environment, or where drinks & water spills are common.
- Comfortable and tactile sealed keys
- Num Lock, Caps Lock and Scroll lock LED's

# Accuratus S100B

**MSR Keyboard**

**Midi Size EPOS Keyboard with MSR and 17 Relegendable Programmable Keys**

## About

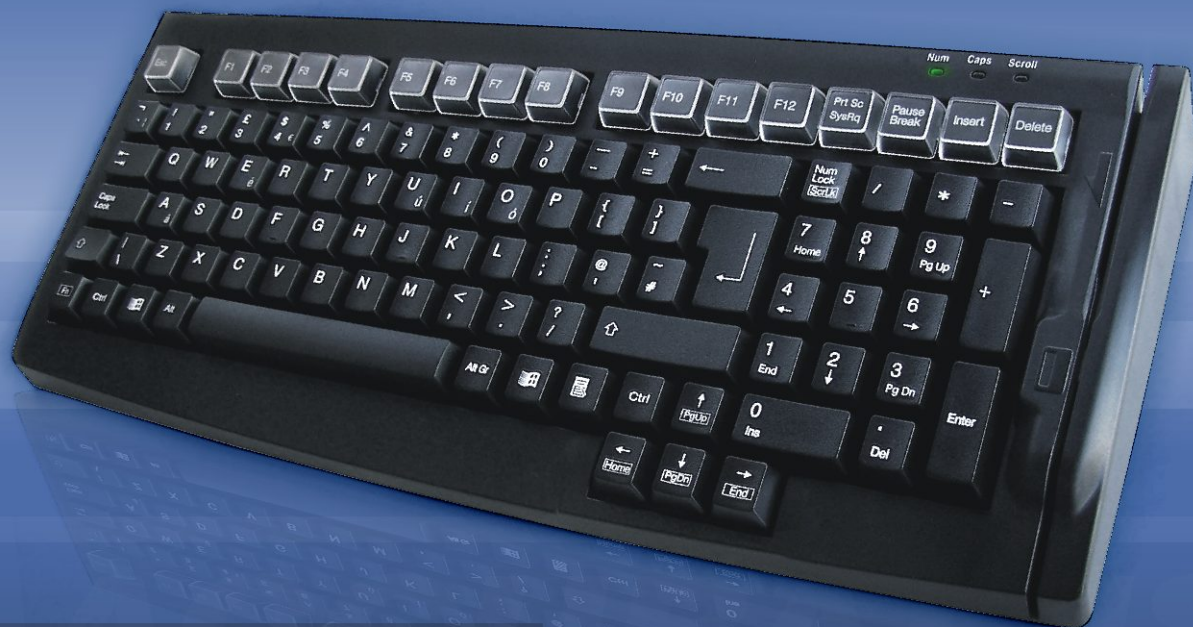

Model No. KYB500-S100B

The Accuratus S100B is a compact EPOS style keyboard with a fully programmable magnetic swipe card reader (MSR). This ideal space saving keyboard also offers 17 relegendable keys that are also fully programmable with multiple layers. This means that you can multiplex these keys with many commands, maybe hold to (FN) function key and F1 to run a specific set of keystrokes. The S100B keyboard can be programmed with our Matrix Maker program which is of course a free product available to download from our website. As with all Accuratus keyboards it uses ultra reliable membrane technology and has high quality keys / key legends to ensure that characters remain fresh throughout the products life.

## Specification

- USB or PS/2 interface
- Black chassis and keycaps with white key legends
- 17 Relegendable fully programmable keys
- Each programmable key can have upto 8 layers of different programming
- 3 Track fully programmable MSR - Complies with ISO7812, IBM standards and American driving license
- True keyboard wedge function
- Caps, Scroll and Num lock functions are independent of other keyboards connected
- Internal metal plate for increased protection against ESD
- Compact and slim design
- UK keyboard layout
