KYBAC595-USBBLK - Black USB 595

KYBAC595-USBSLV - Silver USB 595

ABOUT

The Accuratus 595 from is a compact sized keyboard with 12 embedded function keys.

This design of the 595 always gives the impression that the keyboard is bigger than the measurement suggest. Whilst having 89 keys the 595 (as with many other mini keyboards from Accuratus) has the ability to emulate 105 keys.

The 595 uses the same ultra reliable membrane technology and laser etched keys found on other Accuratus boards which ensures the characters remain fresh throughout the products life.
