Accuratus K540X - Professional Sealed Rugged Mini Touchpad Keyboard with Strong PBT Keys & Adjustable LED Backlighting
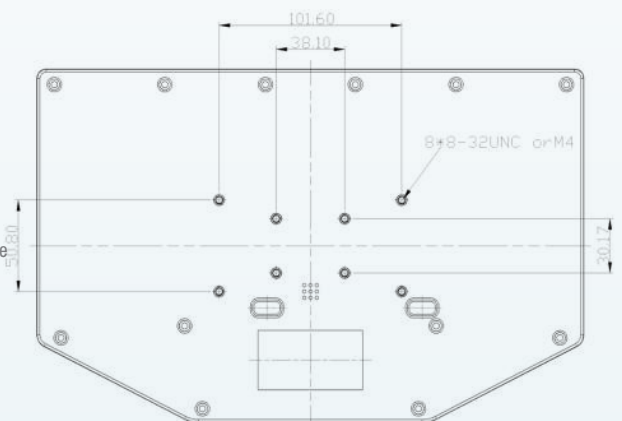

About

The Accuratus K540X is a mini keyboard based on our 540 model shape but built for harsh environments where a rugged keyboard is essential. The K540X is Ip65 graded and has a rugged sealed industrial grade keyboard membrane. The keys are are full height for excellent tactile typing and are made from extremely strong PBT, so that the legends and surface texture will not wear and become shiny. The actual key legends are done by heat sublimation which means the legends are actually melted into the keycap, meaning the legends will never wear and stay fresh throughout the keyboards life. Perfect for darker environments too, the K540X has red LED backlit keys with 8 levels of adjustable intensity perfect for in vehicle use or other environments which are dark and visibility is key.

The K540X can withstand most things you throw at it, its made of a high quality material which offers the perfect combination of practicality, durability, comfort and flexibility. Ideal for many situations such as; factories, in vehicle use, military use, police cars, car garages, warehouses, workshops, laboratories, food environments, boats, the list goes on.
